

Dear Potential Sponsor,

My name is Neil Stuart and I am the Service Manager for the EarlySteps Programme - the first Early Intervention programme in New Zealand designed specifically for children with Autism.

Autism New Zealand is pleased to be partnered with Redwood Park Golf Club as the charity of choice for the 2021 Masters Competition.

Autism NZ is a non-government organisation which supports families impacted by Autism. Autism is a developmental difference that affects 1 in 65 people (approx. 40.000 in New Zealand.)

The EarlySteps programme is an Early Intervention Service run by Autism NZ in West Auckland, supporting children under 5 and their families in the home and in early childhood centres. Any donations received would go directly to the purchase of play equipment for our Play Space at our office, where children come with their parents to learn how to play joyously together.

Though I know it may be a challenge, due to the impact of COVID 19 on the whole of the country, we ask that you support this fundraising event however you can.

Should you wish, I could meet with you in person and show some video of the work we do or you may wish to visit our website <https://www.autismnz.org.nz/>.

Your generosity and support would make such a difference for our West Auckland families finding their way at a vulnerable time.

Yours sincerely,

Neil Stuart  
Service Manager
